MobyMax

Dear Parent(s):

We are excited to implement a new web-based program called MobyMax at Lily Lake Elementary. The Lily Lake PTO was generous to fund a school-wide subscription, making MobyMax available for all students. MobyMax is tailored to your child's individual needs, and we think you will be very impressed by how fast your child will excel while using Moby. Moby's features include:

-Placement tests that accurately identify where your child excels, and where his or her "missing skills" exist
-Targeted instruction to "fill in" those missing skills
-Systematic review sessions that ensure that your child retains 100% of what he or she has learned

Best of all, your child can access Moby from your home computer or tablet at any time.

The only system requirement for MobyMax is an internet connection and browser. The browser versions they support are:

-Internet Explorer 8 or higher
-Firefox 3.5 or higher
-Safari 5 or higher
-Chrome 6 or higher

No download is required for MobyMax. Also, MobyMax is designed to work in very low bandwidth environments and will have very little impact on your network. For example, a student only downloads 1 MB of data in 5 minutes typically.

Additionally, if parents want to check student progress, there is a parent portal that allows parents to see reports on student progress in MobyMax. Parents can sign in by taking the following steps:

1. Go to www.MobyMax.com/signin
2. Select "Parent" from the drop-down menu.
3. Enter the school code: mn1353
4. Enter the student's username.
5. Enter the student's password.

Login steps for [Student]
1. Please go to www.mobymax.com/signin
2. Enter School Code: mn1353 or type in Lily Lake Elementary (select Minnesota school)
3. Enter
       Username:
       Password:

Once logged in, your child will immediately start the math lessons and begin improving his or her missing skills. There are also features for Literature, Vocabulary, Writing, Test Prep, and earned Game time that are open for student use, too.

ENJOY!
