Stillwater Area School District welcomes input from citizens as community involvement fosters better decision making and improved learning experiences for all students. While comments and questions are welcome during Open Forum, law prohibits the Board from discussing concerns about individual employees or students in a public meeting. We will stop the proceedings immediately if employee or student privacy issues are raised and direct the speaker to forward comments regarding individual employees or students to the superintendent.

Because we are modeling civil discourse for our community, speakers must present their testimony in a respectful manner. Vulgarity, character attacks, malice or specific complaints identifying staff or students by name or implication will not be permitted.

The Finance and Operations Work Group asked that Mr. Rantapaa from R.W. Baird report to the full board the estimated interest cost savings associated with a potential refunding (refinancing) of the outstanding 2011A COP. Mr. Rantapaa presented the estimated interest cost savings associated with a potential refinancing of the outstanding 2011A Certificate of Participation (COPs). The COPs were issued to fund construction of the Early Child Family Center. Estimated the district might be able to save more than half a million dollars on associated taxes payable 2021 by refinancing the COPs. A Set Sale Resolution will be prepared directing the sale of bonds with a minimum threshold of $500,000 in savings and brought to the October 24 school board meeting.

B. Accountability Report

Ms. Larson and Ms. Fierro reported to the board the accountability measures (also referred to as Every Student Succeeds Act and the Minnesota Northstar Accountability) for the 2018-19 school year. Northstar replaced the Multiple Measures Rating. The Federal and State Accountability System have been in place for two years. Five different accountability measures that go into the Northstar System were reviewed (academic achievement, progress toward English Language Proficiency, academic programs, graduation progress, and consistent attendance). Our students continue to outperform students across the state and they are growing academically and making strong gains in Reading, Math and English Language Proficiency progress. SAHS 4 year graduation rate reached 95% and the 4-year graduation rate for Special Education was above 67% for the second year in a row. Some opportunities for growth were to continue to build capacity of staff to utilize accountability data, review instructional pacing guides with teacher to check curriculum, assessment, and standards alignment, review test specs and expectations for MCA assessments, and increase capacity of utilizing the data pieces given by the state.

8:07 pm - Break
C. Secondary Literacy Curriculum
Ms. Larson and Ms. Latterell provided a review on the Secondary English Language Arts curriculum and provided framework on the study, evaluation, and recommendation for the curriculum adoption. We are currently in the middle of Year 2: Evaluation and Recommendations. The committee is recommending new language arts curriculum materials be purchased for middle and high school, and recommending an investment be made in professional development for staff to support the curriculum changes. The total package and actual costs due to budget cuts was provided. Approval will be requested at the next board meeting.

D. Community Design Team
Director Burns indicated there has not been a Design Team meeting since the last board meeting. October 15 the third meeting will be held. Building tours will be held over the next few weeks for design team members.

F. Policy 534-Unpaid Meal Charges – Work Group will further review II. Payment of Meals, E. and bring back an updated policy at a future meeting.
G. Policy 620-Credit for Learning – Put PSEO in the definitions section or in section V in parentheses.

XI. Action Items
A. Flex e-Learning
Dr. McDowell shared that the Flex eLearning Days was presented at the August 22 board meeting. The 2017 Legislature amended the Length of School Year; Hours of Instruction (Minn. Stat. § 120A.41) to include the option of a school district utilizing up to five e-Learning days, due to inclement weather. The days are counted as instructional days and included as hours of instruction. Administration and teacher representatives have developed a draft plan for such days. The district will call these days Flex Days. Flex/e-Learning days will provide for an uninterrupted alternate learning experience, avoid mid-year calendar reconfigurations, provide meaningful learning for all students on inclement weather days, and provide flexibility and continuity in students’ learning. Flex/eLearning days will be activated after the second inclement weather day. Learning experiences will be provided in either online or offline formats. Attendance is taken via Schoology and/or assignment completion. More information about the district’s e-Learning plan will be shared with families soon.

F. Spanish Immersion Expansion Proposal
   Director Stivland discussed her idea to request for Administration to prepare and gather information and actionable plan for board consideration with some options and associated costs for expanding the Spanish Immersion Program for fall 2020. Due to some transportation challenges, some school overcrowding and a wait list for the program were a few of the reasons Director Stivland has brought this proposal forward and it should be a part of the Community Design Team process.

Director Stivland made a motion to request that the Administration explore options and gather information for a possible expansion of the Amigos Unidos immersion program. This should include an option to move the program to Oak Park Elementary and to provide transportation from all elementary schools, as well as to determine whether it is feasible to expand this program by next fall; Second by: Member Weisberg.

New Motion by Director Burns to postpone the motion until such time that the Community Design Team has reached their conclusion; Second by Director Pelletier.

Amendment amended by Chair Ptacek to postpone the motion to discuss at the next board meeting. Second by Director Pelletier.

Vote: 3 ayes (Burns, Pelletier, Ptacek); 4 nays (Riehle, Stivland, Weisberg, Pearson). Amendment fails.

Original motion by Director Stivland; Vote: 4 ayes (Stivland, Weisberg, Riehle, Ptacek); 3 nays (Burns, Pelletier, Pearson), Motion Carried.

SAHS Innovation Team

Designing With Students in Mind

The team’s objective is to redesign the high school experience to better meet the needs of ALL students.

Innovation Team includes teachers, students and administrators
Students feel ...  
- overwhelmed with the amount of homework.  
- there is not enough time to do work.  
- like there aren’t enough extended learning opportunities (beyond school offerings).

- like they do not understand what skills are needed beyond high schools, and/or qualify as skills instruction.  
- like they don’t have enough time in their schedule or that the schedule is flexible enough.  
- unaware of the relevance of our course offerings.
### Our Plan to Redesign SAHS

Why Career Pathways?

- Help students understand career options
- Provide students with hands-on experiences in a variety of areas
- Allow students to leave high school with marketable skills and experiences
- Gives students a competitive advantage for whatever comes next:
  - Technical program, certification, associate degree, four-year degree, employment, or military

I. PURPOSE

The purpose of this policy is to provide for family and medical leave to school district employees in accordance with the Family and Medical Leave Act of 1993 (FMLA) and also with parenting leave under state law.

II. GENERAL STATEMENT OF POLICY

The following procedures and policies regarding family and medical leave are adopted by the school district, pursuant to the requirements of the FMLA and consistent with the requirements of the Minnesota parenting leave laws.

III. DEFINITIONS

A. “Covered active duty” means:

1. in the case of a member of a regular component of the Armed Forces, duty during the deployment of the member with the Armed Forces to a foreign country; and

2. in the case of a member of a reserve component of the Armed Forces, duty during the deployment of the member with the Armed Forces to a foreign country under a call or order to active duty under a provision of law referred to in 10 U.S.C. § 101(a)(13)(B).

B. “Covered service member” means:

1. a member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness; or

2. a covered veteran who is undergoing medical treatment, recuperation, or therapy for a serious injury or illness and who was a member of the Armed Forces, including a member of the National Guard or Reserves, and was discharged or released under conditions other than dishonorable, at any time during the period
of five years preceding the first date the eligible employee takes FMLA leave to care for the covered veteran.

C. “Eligible employee” means an employee who has been employed by the school district for a total of at least 12 months and who has been employed for at least 1,250 hours of service during the 12-month period immediately preceding the commencement of the leave. An employee returning from fulfilling his or her Uniformed Services Employment and Reemployment Rights Act (USERRA)-covered service obligation shall be credited with the hours of service that would have been performed but for the period of absence from work due to or necessitated by USERRA-covered service. In determining whether the employee met the hours of service requirement, and to determine the hours that would have been worked during the period of absence from work due to or necessitated by USERRA-covered service, the employee’s pre-service work schedule can generally be used for calculations. While the 12 months of employment need not be consecutive, employment periods prior to a break in service of seven years or more may not be counted unless the break is occasioned by the employee’s fulfillment of his or her USERRA-covered service obligation or a written agreement, including a collective bargaining agreement, exists concerning the school district’s intention to rehire the employee after the break in service.

D. “Military caregiver leave” means leave taken to care for a covered service member with a serious injury or illness.

E. “Next of kin of a covered service member” means the nearest blood relative other than the covered service member’s spouse, parent, son, or daughter, in the following order of priority: blood relatives who have been granted legal custody of the covered service member by court decree or statutory provisions, brothers and sisters, grandparents, aunts and uncles, and first cousins, unless the covered service member has specifically designated in writing another blood relative as his or her nearest blood relative for purposes of military caregiver leave under the FMLA. When no such designation is made and there are multiple family members with the same level of relationship to the covered service member, all such family members shall be considered the covered service member’s next of kin, and the employee may take FMLA leave to provide care to the covered service member, either consecutively or simultaneously. When such designation has been made, the designated individual shall be deemed to be the covered service member’s only next of kin.

F. “Outpatient status” means, with respect to a covered service member who is a current member of the Armed Forces, the status of a member of the Armed Forces assigned to:

1. a military medical treatment facility as an outpatient; or
2. a unit established for the purpose of providing command and control of members of the Armed Forces receiving care as outpatients.

G. “Qualifying exigency” means a situation where the eligible employee seeks leave for one or more of the following reasons:
1. to address any issues that arise from a short-notice deployment (seven calendar days or less) of a covered military member;

2. to attend military events and related activities of a covered military member;

3. to address issues related to childcare and school activities of a covered military member’s child;

4. to address financial and legal arrangements for a covered military member;

5. to attend counseling provided by someone other than a health care provider for oneself, a covered military member, or his/her child;

6. to spend up to 15 calendar days with a covered military member who is on short-term, temporary rest and recuperation leave during a period of deployment;

7. to attend post-deployment activities related to a covered military member;

8. to address parental care needs; and

9. to address other events related to a covered military member that both the employee and school district agree is a qualifying exigency.

H. “Serious health condition” means an illness, injury, impairment, or physical or mental condition that involves:

1. inpatient care in a hospital, hospice, or residential medical care facility; or

2. continuing treatment by a health care provider.

I. “Spouse” means a husband or wife. For purposes of this definition, husband or wife refers to the other person with whom an individual entered into marriage as defined or recognized under state law for purposes of marriage in the state in which the marriage was entered into or, in the case of a marriage entered into outside of any state, if the marriage is valid in the place where entered into and could have been entered into in at least one state. This definition includes an individual in a same-sex or common law marriage that either: (1) was entered into in a state that recognizes such marriages; or (2) if entered into outside of any state, is valid in the place where entered into and could have been entered into in at least one state.

J. “Veteran” has the meaning given in 38 U.S.C. § 101.

IV. LEAVE ENTITLEMENT

A. Twelve-week Leave under Federal Law

1. Eligible employees are entitled to a total of 12 work weeks of unpaid family or medical leave during the applicable 12-month period as defined below, plus any
additional leave as required by law. Leave may be taken for one or more of the following reasons in accordance with applicable law:

a. birth of the employee’s child and to care for such child;

b. placement of an adopted or foster child with the employee;

c. to care for the employee’s spouse, son, daughter, or parent with a serious health condition;

d. the employee’s serious health condition makes the employee unable to perform the functions of the employee’s job; and/or

e. any qualifying exigency arising from the employee’s spouse, son, daughter, or parent being on covered active duty, or notified of an impending call or order to covered active duty in the Armed Forces.

2. For the purposes of this policy, “year” is defined as a rolling 12-month period measured backward from the date an employee’s leave is to commence.

3. An employee’s entitlement to FMLA leave for the birth, adoption, or foster care of a child expires at the end of the 12-month period beginning on the date of the birth or placement.

4. A “serious health condition” typically requires either inpatient care or continuing treatment by or under the supervision of a health care provider, as defined by applicable law. Family and medical leave generally is not intended to cover short-term conditions for which treatment and recovery are very brief.

5. A “serious injury or illness,” in the case of a member of the Armed Forces, including a member of the National Guard or Reserves, means:

a. injury or illness that was incurred by the member in the line of duty on active duty in the Armed Forces or that existed before the beginning of the member’s active duty and was aggravated by service in the line of duty on active duty in the Armed Forces and that may render the member medically unfit to perform the duties of the member’s office, grade, rank, or rating; and

b. in the case of a covered veteran who was a member of the Armed Forces, including a member of the National Guard or Reserves, at any time, during the period of five years preceding the date on which the veteran undergoes the medical treatment, recuperation, or therapy, means a qualifying injury or illness that was incurred by the member in the line of duty on active duty in the Armed Forces or that existed before the beginning of the member’s active duty and was aggravated by service in the line of duty in the Armed Forces and that manifested itself before or after the member became a veteran, and is:
(1) a continuation of a serious injury or illness that was incurred or aggravated when the covered veteran was a member of the Armed Forces and rendered the service member unable to perform the duties of the service member’s office, grade, rank, or rating; or

(2) a physical or mental condition for which the covered veteran has received a U.S. Department of Veterans Affairs Service-Related Disability (VASRD) rating of 50 percent or greater and such VASRD rating is based, in whole or in part, on the condition precipitating the need for military caregiver leave; or

(3) a physical or mental condition that substantially impairs the covered veteran’s ability to secure or follow a substantially gainful occupation by reason of a disability or disabilities related to military service, or would do so absent treatment; or

(4) an injury, including a psychological injury, on the basis of which the covered veteran has been enrolled in the Department of Veterans Affairs Program of Comprehensive Assistance for Family Caregivers.

6. Eligible spouses employed by the school district are limited to an aggregate of 12 weeks of leave during any 12-month period for the birth and care of a newborn child or adoption of a child, the placement of a child for foster care, or to care for a parent. This limitation for spouses employed by the school district does not apply to leave taken: by one spouse to care for the other spouse who is seriously ill; to care for a child with a serious health condition; because of the employee’s own serious health condition; or pursuant to Paragraph IV.A.1.e. above.

7. Depending on the type of leave, intermittent or reduced schedule leave may be granted in the discretion of the school district or when medically necessary. However, part-time employees are only eligible for a pro-rata portion of leave to be used on an intermittent or reduced schedule basis, based on their average hours worked per week. Where an intermittent or reduced schedule leave is foreseeable based on planned medical treatment, the school district may transfer the employee temporarily to an available alternative position for which the employee is qualified and which better accommodates recurring periods of leave than does the employee’s regular position, and which has equivalent pay and benefits.

8. If an employee requests a leave for the serious health condition of the employee or the employee’s spouse, child, or parent, the employee will be required to submit sufficient medical certification. In such a case, the employee must submit the medical certification within 15 days from the date of the request or as soon as practicable under the circumstances.

9. If the school district has reason to doubt the validity of a health care provider’s certification, it may require a second opinion at the school district’s expense. If the opinions of the first and second health care providers differ, the school
district may require certification from a third health care provider at the school
district’s expense. An employee may also be required to present a certification
from a health care provider indicating that the employee is able to return to work.

10. Requests for leave shall be made to the school district. When leave relates to an
employee’s spouse, son, daughter, parent, or covered service member being on
covered active duty, or notified of an impending call or order to covered active
duty pursuant to Paragraph IV.A.1.e. above, and such leave is foreseeable, the
employee shall provide reasonable and practical notice to the school district of
the need for leave. For all other leaves, employees must give 30 days’ written
notice of a leave of absence where practicable. The failure to provide the
required notice may result in a delay of the requested leave. Employees are
expected to make a reasonable effort to schedule leaves resulting from planned
medical treatment so as not to disrupt unduly the operations of the school district,
subject to and in coordination with the health care provider.

11. The school district may require that a request for leave under Paragraph IV.A.1.e.
above be supported by a copy of the covered military member’s active duty
orders or other documentation issued by the military indicating active duty or a
call to active duty status and the dates of active duty service. In addition, the
school district may require the employee to provide sufficient certification
supporting the qualifying exigency for which leave is requested.

12. During the period of a leave permitted under this policy, the school district will
provide health insurance under its group health plan under the same conditions
coverage would have been provided had the employee not taken the leave. The
employee will be responsible for payment of the employee contribution to
continue group health insurance coverage during the leave. An employee’s
failure to make necessary and timely contributions may result in termination of
coverage. An employee who does not return to work after the leave may be
required, in some situations, to reimburse the school district for the cost of the
health plan premiums paid by it.

13. The school district may request or require the employee to substitute accrued
paid leave for any part of the 12-week period. Employees may be allowed to
substitute paid leave for unpaid leave by meeting the requirements set out in the
administrative directives and guidelines established for the implementation of
this policy, if any. Employees eligible for leave must comply with the family and
medical leave directives and guidelines prior to starting leave. The
superintendent shall be responsible to develop directives and guidelines as
necessary to implement this policy. Such directives and guidelines shall be
submitted to the school board for annual review.

The school district shall comply with written notice requirements as set forth in
federal regulations.

14. Employees returning from a leave permitted under this policy are eligible for
reinstatement in the same or an equivalent position as provided by law.
However, the employee has no greater right to reinstatement or to other benefits

and conditions of employment than if the employee had been continuously employed during the leave.

B. Twelve-week Leave under State Law

An employee who does not qualify for parenting leave under Paragraphs IV.A.1.a. or IV.A.1.b. above may qualify for a 12-week unpaid leave which is available to a biological or adoptive parent in conjunction with the birth or adoption of a child, or to a female employee for prenatal care or incapacity due to pregnancy, childbirth, or related health conditions. The length of the leave shall be determined by the employee but must not exceed 12 weeks unless agreed by the employer. The employee may qualify if he or she has worked for the school district for at least 12 months and has worked an average number of hours per week equal to one-half of the full time equivalent during the 12-month period immediately preceding the leave. This leave is separate and exclusive of the family and medical leave described in the preceding paragraphs but may be reduced by any period of paid parental, disability, personal, or medical, or sick leave, or accrued vacation provided by the employer so that the total leave does not exceed 12 weeks, unless agreed by the employer, or leave taken for the same purpose under the FMLA. The leave taken under this section shall begin at a time requested by the employee. An employee who plans to take leave under this section must give the employer reasonable notice of the date the leave shall commence and the estimated duration of the leave. For leave taken by a biological or adoptive parent in conjunction with the birth or adoption of a child, the leave must begin within 12 months of the birth or adoption; except that, in the case where the child must remain in the hospital longer than the mother, the leave must begin within 12 months after the child leaves the hospital.

C. Twenty-six-week Service Member Family Military Leave

1. An eligible employee who is the spouse, son, daughter, parent, or next of kin of a covered service member shall be entitled to a total of 26 work weeks of leave during a 12-month period to care for the service member. The leave described in this paragraph shall be available only during a single 12-month period. For purposes of this leave, the need to care for a service member includes both physical and psychological care.

2. During a single 12-month period, an employee shall be entitled to a combined total of 26 work weeks of leave under Paragraphs IV.A. and IV.C. above.

3. The 12-month period referred to in this section begins on the first day the eligible employee takes leave to care for a covered service member and ends 12 months after that date.

4. Eligible spouses employed by the school district are limited to an aggregate of 26 weeks of leave during any 12-month period if leave is taken for birth of the employee’s child or to care for the child after birth; for placement of a child with the employee for adoption or foster care or to care for the child after placement; to care for the employee’s parent with a serious health condition; or to care for a covered service member with a serious injury or illness.
5. The school district may request or require the employee to substitute accrued paid leave for any part of the 26-week period. Employees may be allowed to substitute paid leave for unpaid leave by meeting the requirements set out in the administrative directives and guidelines established for the implementation of this policy, if any. Employees eligible for leave must comply with the family and medical leave directives and guidelines prior to starting leave.

6. An employee will be required to submit sufficient medical certification issued by the health care provider of the covered service member and other information in support of requested leave and eligibility for such leave under this section within 15 days from the date of the request or as soon as practicable under the circumstances.

V. SPECIAL RULES FOR INSTRUCTIONAL EMPLOYEES

A. An instructional employee is one whose principal function is to teach and instruct students in a class, a small group, or an individual setting. This includes, but is not limited to, teachers, coaches, driver’s education instructors, and special education assistants.

B. Instructional employees who request foreseeable medically necessary intermittent or reduced work schedule leave greater than 20 percent of the work days in the leave period may be required to:

1. take leave for the entire period or periods of the planned medical treatment; or

2. move to an available alternative position for which the employee is qualified, and which provides equivalent pay and benefits, but not necessarily equivalent duties.

C. Instructional employees who request continuous leave near the end of a semester may be required to extend the leave through the end of the semester. The number of weeks remaining before the end of a semester does not include scheduled school breaks, such as summer, winter, or spring break.

1. If an instructional employee begins leave for any purpose more than five weeks before the end of a semester and it is likely the leave will last at least three weeks, the school district may require that the leave be continued until the end of the semester.

2. If the employee begins leave for a purpose other than the employee’s own serious health condition during the last five weeks of a semester, the school district may require that the leave be continued until the end of the semester if the leave will last more than two weeks or if the employee’s return from leave would occur during the last two weeks of the semester.
3. If the employee begins leave for a purpose other than the employee’s own serious health condition during the last three weeks of the semester and the leave will last more than five working days, school district may require the employee to continue taking leave until the end of the semester.

D. The entire period of leave taken under the special rules will be counted as leave. The school district will continue to fulfill the school district’s leave responsibilities and obligations, including the obligation to continue the employee’s health insurance and other benefits, if an instructional employee’s leave entitlement ends before the involuntary leave period expires.

VI. OTHER

A. The provisions of this policy are intended to comply with applicable law, including the FMLA and applicable regulations. Any terms used from the FMLA will have the same meaning as defined by the FMLA and/or applicable regulations. To the extent that this policy is ambiguous or contradicts applicable law, the language of the applicable law will prevail.

B. The requirements stated in the collective bargaining agreement between employees in a certified collective bargaining unit and the school district regarding family and medical leaves (if any) shall be followed.

VII. DISSEMINATION OF POLICY

A. This policy shall be conspicuously posted in each school district building in areas accessible to employees.

B. This policy will be reviewed at least annually for compliance with state and federal law.

Credit for Learning

[Note: School districts statutorily are required to provide students with credit for approved post-secondary courses, as set forth in Section V.; online learning courses, as set forth in Section VI.; and accelerated or advanced academic courses offered by a higher education institution or nonprofit public agency, as set forth in Section VII. Additionally, school districts are required by statute to identify whether the school district offers weighted grades and, if it does, identify the courses for which a student may earn a weighted grade (Section VIII). Optional provisions related to awarding credit to students transferring from out-of-state, private, or home schools and the issuance of student grades for purposes of awarding certain honors, as set forth in Section IV., are not required by statute. Therefore, the language contained in Section IV. is suggested language, and a school district may or may not include this section or may modify this section at its discretion.]

I. PURPOSE

The purpose of this policy is to recognize student achievement which occurs in Post-Secondary Enrollment Options and other advanced enrichment programs. The purpose of this policy also is to recognize student achievement which occurs in other schools, in alternative learning sites, and in out-of-school experiences such as community organizations, work-based learning, and other educational activities and opportunities. The purpose of this policy also is to address the transfer of student credit from out-of-state, private, or home schools and online learning programs and to address how the school district will recognize student achievement obtained outside of the school district.

II. GENERAL STATEMENT OF POLICY

The policy of the school district is to provide a process for awarding student’s credit toward graduation requirements for credits and grades students complete in other schools, post-secondary or higher education institutions, other learning environments, and online courses and programs.

III. DEFINITIONS

A. “Accredited school” means a school that is accredited by an accrediting agency, recognized according to Minn. Stat. § 123B.445 or recognized by the Commissioner of the Minnesota Department of Education (MDE).

B. “Blended learning” is a form of digital learning that occurs when a student learns part time in a supervised physical setting and part time through digital delivery of instruction, or a student learns in a supervised physical setting where technology is used as a primary method to deliver instruction.
C. “Commissioner” means the Commissioner of MDE.

D. “Concurrent Enrollment” means college courses offered at the high school, usually taught by a trained high school teacher. These are offered in partnership with a college or university. Students who successfully complete these courses generate both high school and transcripted college credit from the partnering postsecondary institution.

E. “Digital learning” is learning facilitated by technology that offers students an element of control over the time, place, path, or pace of their learning and includes blended and online learning.

EF. “Eligible institution” means a Minnesota public post-secondary institution, a private, nonprofit two-year trade and technical school granting associate degrees, an opportunities industrialization center accredited by the United States Department of Education, or a private, residential, two-year or four-year, liberal arts, degree-granting college or university located in Minnesota.

Students may take PSEO courses on a full- or part-time basis. The PSEO program provides students with a greater variety of class offerings as well as the opportunity to pursue more challenging coursework than may be available at the high school. The tuition, fees and required textbooks are at no cost to students.

K. “Weighted grade” is a letter or numerical grade that is assigned a numerical advantage when calculating the grade point average.

L. “Concurrent Enrollment” means college courses offered at the high school, usually taught by a trained high school teacher. These are offered in partnership with a college or university. IV. TRANSFER OF CREDIT FROM OTHER SCHOOLS

A. Transfer of Academic Requirements from Other Minnesota Public Secondary Schools

1. The school district will accept and transfer secondary credits and grades awarded to a student from another Minnesota public secondary school upon presentation of a certified transcript from the transferring public secondary school evidencing the course taken and the grade and credit awarded.

2. Credits and grades awarded from another Minnesota public secondary school may be used to compute honor roll and/or class rank if a student has earned at least \[ \text{insert number} \] credits from the school district.

B. Transfer of Academic Requirements from Other Schools

1. The school district will accept secondary credits and grades awarded to a student for courses successfully completed at a public school outside of Minnesota or an accredited nonpublic school upon presentation of a certified transcript from the transferring public school in another state or nonpublic school evidencing the course taken and the grade and credit awarded.

   a. When a determination is made that the content of the course aligns directly with school district graduation requirements, the student will be awarded commensurate credits and grades.

   b. Commensurate credits and grades awarded from an accredited nonpublic school or public school in another state may be used to compute honor roll and/or class rank if a student has earned at least \[ \text{insert number} \] credits from the school district.

   c. In the event the content of a course taken at an accredited nonpublic school or public school in another state does not fully align with the content of the school district’s high school graduation requirements but is comparable to elective credits offered by the school district for graduation, the student may be provided elective credit applied toward graduation requirements. Credit that does not fully align with the school district’s high school graduation requirements will not be used to compute honor roll and/or class rank.

   d. If no comparable course is offered by the school district for which high school graduation credit would be provided, no credit will be provided to the student.

2. Students transferring from a non-accredited, nonpublic school shall receive credit from the school district upon presentation of a transcript or other documentation evidencing the course taken and grade and credit awarded.
a. Students will be required to provide copies of course descriptions, syllabi, or work samples for determination of appropriate credit. In addition, students also may be asked to provide interviews/conferences with the student and/or student’s parent and/or former administrator or teacher; review of a record of the student’s entire curriculum at the nonpublic school; and review of the student’s complete record of academic achievement.

b. Where the school district determines that a course completed by a student at a non-accredited, nonpublic school is commensurate with school district graduation requirements, credit shall be awarded, but the grade shall be “P” (pass).

c. In the event the content of a course taken at a non-accredited, nonpublic school does not fully align with the content of the school district’s high school graduation requirements, it may be but is comparable to elective credits offered by the school district for graduation, the student may be provided elective credit applied toward graduation requirements.

d. If no comparable course is offered by the school district for which local high school graduation credit would be provided, no credit will be provided to the student.

e. Credit and grades earned from a non-accredited nonpublic school shall not be used to compute honor roll and/or class rank.

V. POST-SECONDARY ENROLLMENT CREDIT

A. A student who satisfactorily completes a post-secondary enrollment options course or program under Minn. Stat. § 124D.09 that has been approved as meeting the necessary requirements is not required to complete other requirements of the Minnesota Academic Standards content standards corresponding to that specific rigorous course of study.

B. Secondary credits granted to a student through a post-secondary enrollment options course or program that meets or exceeds a graduation standard or requirement shall be counted toward the graduation and credit requirements of a student completing the Minnesota Academic Standards.

2. Seven quarter or four semester post-secondary credits shall equal at least one full year of high school credit. Fewer post-secondary credits may be prorated.

3. When a determination is made that the content of the post-secondary course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student’s transcript as a course credit applied toward graduation requirements.
4. In the event the content of the post-secondary course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade may be recorded on the student’s transcript as an elective course credit applied toward graduation requirements.

5. If no comparable course is offered by the school district for which high school graduation credit would be provided, the school district will notify the Commissioner, who shall determine the number of credits that shall be granted to a student.

6. When secondary credit is granted for post-secondary credits taken by a student, the school district will record those credits on the student’s transcript as credits earned at a post-secondary institution.

C. A list of the courses or programs meeting the necessary requirements may be obtained from the school district.

VI. CREDIT FROM ONLINE LEARNING COURSES

A. Secondary credits granted to a student through an online learning course or program that meets or exceeds a graduation standard or requirement shall be counted toward the graduation and credit requirements of a student completing the Minnesota Academic Standards.

B. Course credit will be considered only upon official documentation from the online learning provider evidencing the course taken and the grade and credit awarded to the student.

C. When a student provides documentation from an online learning provider, the course credit and course grade shall be recorded and counted toward graduation credit requirements for all courses or programs that meet or exceed the school district’s graduation requirements in the same manner as credits are awarded for students transferring from another Minnesota public school as set forth in Section IV.A. above.

D. When a determination is made that the content of the advanced academic course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student’s transcript as a course credit applied toward graduation requirements.

E. In the event the content of the advanced academic course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade may be recorded on the student’s transcript as an elective course credit applied toward graduation requirements.

VII. ADVANCED ACADEMIC CREDIT
A. The school district will grant academic credit to a student attending an accelerated or advanced academic course offered by a higher education institution or a nonprofit public agency, other than the school district.

B. Course credit will be considered only upon official documentation from the higher education institution or nonprofit public agency that the student successfully completed the course attended and passed an examination approved by the school district.

C. In the event the content of the course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade will be recorded on the student’s transcript as an elective course credit applied toward graduation requirements.

D. When a determination is made that the content of the advanced academic course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student’s transcript as a course credit applied toward graduation requirements.

E. In the event the content of the advanced academic course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade may be recorded on the student’s transcript as an elective course credit applied toward graduation requirements.

F. If no comparable course is offered by the school district for which high school graduation credit would be provided, the school district will notify the Commissioner and request a determination of the number of credits that shall be granted to a student.

VIII. Concurrent Enrollment

A. Students who successfully complete these courses generate both high school and transcripted college credit from the partnering postsecondary institution.

B. Students must follow registration procedures established through the higher educational institution to receive credit.

C. A list of the courses or programs meeting the necessary requirements may be obtained from the school district.

IX. WEIGHTED GRADERS

[Note: School districts must identify in policy whether they offer courses with weighted grades. Therefore, school districts must include one of the following options in their policies.]

C. The school district will update its website prior to the beginning of each school year with a listing of the courses for which a student may earn a weighted grade.

IX. PROCESS FOR AWARDING CREDIT

A. The student’s counselor building principal will be responsible for carrying out the process to award credits and grades pursuant to this policy. In the event of disputes, the building principal will decide notify students in writing of the decision as to how credits and grades will be awarded.

B. A student or the student’s parent or guardian may seek reconsideration of the decision by the building principal as to credits and/or grades awarded upon request of a student or the student’s parent or guardian if the request is made in writing to the superintendent within five school days of the date of the building principal’s decision. The request should set forth the credit and/or grade requested and the reason(s) why credit(s)/grade(s) should be provided as requested. Any pertinent documentation in support of the request should be submitted.

C. The decision of the superintendent as to the award of credits or grades shall be a final decision by the school district and shall not be appealable by the student or student’s parent or guardian except as set forth in Section 4X.D. below.

Motion by: _____________________ Seconded by: _____________________ Vote: _____________________
1. Increase the basic general education funding formula

- For the past 17 years, the average general education formula increase has not kept pace with rising costs (see chart below).
- Stillwater relies on state funding for approximately 68% of its general fund revenue.
- We are below the cap for our operating levy and do not have a capital projects levy for technology, which means our schools have fewer local resources available to students than many other school districts.
- Our existing operating levy will need to be renewed or replaced by voters by November 2021 or we’ll lose approximately $12 million in annual funding.

[Chart showing per pupil unit funding from 2010 to 2020, with the gap between actual basic formula allowance and the basic formula when adjusted for inflation.

2. Further increase the state’s share of special education funding and reduce paperwork for special educators

- Special education costs for the district have increased by 84% from 2012 to 2019.
- Special education funding from the state and federal sources cover only about 67% of the total special education costs in Stillwater.
- Paperwork burdens special educators, giving them less time to teach students and contributing to burn-out and a shortage of qualified special education teachers.

3. Increase funding to support mental health initiatives and increase the physical safety/security of our schools

- Additional staff members, as well as additional training for existing staff, are needed to address the increasingly complex mental health needs of our students.
- Community partners and numerous grants help provide our schools with additional mental health supports, but these initiatives are not sustainable nor do they meet all of our needs.
- During the 2018-2019 school year, we submitted $1.325 million in grant requests to the Minnesota Department of Education to address building security concerns across the district - these grant requests were unfunded.
Thank You For Your Continued Support!

Who We Are:
The Stillwater Area Public School District serves about 8,400 students from 18 unique communities along the St. Croix River – from Marine to Afton and a portion of Woodbury. Our boundaries stretch 30 miles and cover approximately 150 square miles.

2019 Legislative Impact
As a result of the 2019 legislative session our district received approximately $2 million in new funding for fiscal year 2020. Every dollar is being invested to support the operations of our school district. Thank you for supporting our students.

Here's a quick breakdown of what the $2 million in funding for fiscal year 2020 means for Stillwater Area Public Schools:

- **General Education Formula Increase:** This increase helped, but didn’t fully match the rising costs of insurance, transportation, technology, new initiatives, and pending negotiated salaries for all employee groups.

  To balance our budget (revenues and expenditures) while maintaining an unassigned fund balance of 5%, our school board felt obligated to approve $2,095 million in budget reductions for the current school year.

- **Special Education (cross-subsidy) Aid:** The increased special education aid approved in 2019 will provide an estimated $800,00 for our district. This helps offset the growing costs of special education. However, even with this increase, millions of dollars from our general fund goes toward the cross subsidy the unreimbursed cost of required special education by the state or federal governments.

- **Safe Schools Supplemental Aid:** Our district received $289,708 in one-time safe schools supplemental aid.

Summary:
A new election law from the 2017 legislative session (Chapter 92, Article 2) requires school districts to approve a resolution to combine polling places. This resolution must be approved by December 31 of each year and a copy of the resolution must be submitted to the County Auditor. However, due to it being an election year the deadline has been moved to December 1.

All school districts will need to pass a resolution annually establishing combined polling places for any potential special elections in the upcoming year, even if the polling places never change.

These are polling locations that would be used in the event of a special election.

Recommendation:
A motion and a second to approve the resolution for the 2020 Combined Polling Locations will be requested.
