The Finance and Operations Work Group asked that Mr. Rantapaa from R.W. Baird report to the full board the estimated interest cost savings associated with a potential refunding (refinancing) of the outstanding 2011A COP. Mr. Rantapaa presented the estimated interest cost savings associated with a potential refinancing of the outstanding 2011A Certificate of Participation (COPs). The COPs were issued to fund construction of the Early Child Family Center. Estimated the district might be able to save more than half a million dollars on associated taxes payable 2021 by refinancing the COPs. A Set Sale Resolution will be prepared directing the sale of bonds with a minimum threshold of $500,000 in savings and brought to the October 24 school board meeting.

B. Accountability Report
Ms. Larson and Ms. Fierro reported to the board the accountability measures (also referred to as Every Student Succeeds Act and the Minnesota Northstar Accountability) for the 2018-19 school year. Northstar replaced the Multiple Measures Rating. The Federal and State Accountability System have been in place for two years. Five different accountability measures that go into the Northstar System were reviewed (academic achievement, progress toward English Language Proficiency, academic programs, graduation progress, and consistent attendance). Our students continue to outperform students across the state and they are growing academically and making strong gains in Reading, Math and English Language Proficiency progress. SAHS 4 year graduation rate reached 95% and the 4-year graduation rate for Special Education was above 67% for the second year in a row. Some opportunities for growth were to continue to build capacity of staff to utilize accountability data, review instructional pacing guides with teacher to check curriculum, assessment, and standards alignment, review test specs and expectations for MCA assessments, and increase capacity of utilizing the data pieces given by the state.

Stat. § 120A.41) to include the option of a school district utilizing up to five e-Learning days, due to inclement weather. The days are counted as instructional days and included as hours of instruction. Administration and teacher representatives have developed a draft plan for such days. The district will call these days Flex Days. Flex/e-Learning days will provide for an uninterrupted alternate learning experience, avoid mid-year calendar reconfigurations, provide meaningful learning for all students on inclement weather days, and provide flexibility and continuity in students’ learning. Flex/eLearning days will be activated after the second inclement weather day. Learning experiences will be provided in either online or offline formats. Attendance is taken via Schoology and/or assignment completion. More information about the district’s e-Learning plan will be shared with families soon.
