**SUMS Up! Success Using Math Skills**

The SUMS Up Math Program is a great way for students to keep their math skills sharp over the summer! This program is intended to help parents encourage their kids to stay fresh in math by giving them resources that align directly with the District 834 math curriculum.

*Parents should order the grade level their child has just completed. This program is designed to help children maintain their grade level learning.*

Each child registered will receive a colorful bag containing a workbook, a letter from the teacher and math manipulatives to use with their assignments. Each week, via email or U.S. Mail, we will send an assignment which will include focus workbook pages, as well as math games and suggested online sites that kids can go to for more practice. Lessons are completed by the child and corrected by the parent so there is nothing to turn in. This program is coordinated by district teachers who will be available over the summer via email to answer parent questions.

**Fee: $35/child**

- 250-K .......... completed Kindergarten
- 250-1st ........... completed 1st Grade

Imagine a comical road trip in a far off land! The journey is filled with car games like I Spy, Road Trip Bingo, or Name that Tune. We’ll try to avoid obstacles along the way, but you never know when sheep will cross the road or when a tire will pop! At camp this week, we will explore a Spanish speaking country by car, stretching our legs at famous landmarks, taking photos, and laughing the whole way. And we’ll do it all in Spanish! Utilizing Concordia Language Villages trademark immersion strategies of games, music, movement, teamwork and imagination, we’ll learn and practice language. All language levels welcome!
