Our three-year strategic plan outlines how we will bring that vision to life, and the operational plan, listed below, identifies our areas of focus in the current year. You can learn even more by reading the specific goals and strategies listed in the pages of this document.

Engaged Learners
We’re aligning our systems and developing strategies to ensure we’re responsive to each students’ needs - academic, social and emotional.

- **Student engagement**: Designing experiences for our students with their specific needs and wishes in mind (empathy).

- **Resource alignment with program**: Continuing to develop systemic alignment between human and financial resources and program design, encompassing facilities, transportation, food service and safety.
- **Technology and design**: Improving accessibility to technology, while ensuring it is used to support learning in the classroom.

Communication & Collaboration
We’re expanding and strengthening our connections with community and families to support the engagement of our students.

- **#Pony Pride**: Expanding pride for our schools and our students within the community.
- **Communications alignment**: Enhancing communication with families at a district, building and staff level.

The objectives of our Strategic Plan are based on the areas of the WBWF. Each year, our school board members and district staff work together to set goals in each of the five focus areas. The goals help guide the Operational Plan, while providing essential information about how our students are doing each year. Goals may range from one to three years in length.

Because our entire community has a vested interest in our students, board members also engage residents, business leaders, parents and others to support the work on a community level.

*Strategies with (RM) denotes alignment with Reimagine Minnesota, an action plan developed by local superintendent’s to address integration, access, opportunity, and educational achievement for all students.
